MONEY, STOCKS AND BONDS.

The Bear Movement Being Over the Market Relapses Into Complete Stagnation.

NEW YORK, Aug. 8 .- Money on call was close, ranging from 5 to 8 per cent., the last loan being made at 5; closing offered at 5.

Prime mercantile paper 5@612 per cent. Sterling exchangedull and weak at \$4.8414 for sixty-day bills and \$4.8812 for demand. The total sales of stocks to-day were 111,-419 shares, including the following: Atchison, 8,950; Delaware, Lackawanna & Western, 4,400, Missouri Pacific, 5,207; Oregon Transcontinental, 5,170; St. Paul, 11,300; Union Pacific, 3,525.

The stock market to-day returned to its old condition of extreme dullness in business and utter stagnation in prices, the bear movement apparently having finally come to an end. The same conditions which invited the late attack remain, however, and while money on call is commanding more than the legal rate and no improvement in the crop situation is reported, every one expects to see an unfavorable bank statement to-morrow. The sub-treasury, while paying over \$1,000,000 for bonds releemed during the part week, is known to have absorbed something in the neighborod of \$4,000,000 in that time, and about \$2,500,000 have been deposited on account of shipments to European points. At the same time it is believed that the local "bears" have covered their shorts and are ready for a turn on the long side, but there seems to be a lack of leaders for such a movement, and the still unsettled finances both here and in London make would-be speculators wary of entering into adventures in the stock market. London, however, displayed a better feeling and this morning was buoyant on American securities with an easier money market and the recent purchases of securities here for foreign account give emphasis to the fact. The rates for sterling exchange were lower and the leading bankers do not anticipate any further outgo of gold in the near future. The higher figures from London this morning, together with the rally last evening, contributed to make a firm to strong opening and even further fractional advances in the early dealings. The upward movement could not be maintained, however, and prices after settling back to about the level of first figures, became stagnant in the afternoon. New England was the strong feature of the day and it scored a gain of over 1 per cent., but like all the rest, even the inside manipulation could not hold the advance. Sugar was moved up or down according to the varying feeling as to the probable outcome of the suit to admit Receiver Gray as a defendant in the Sugar Trust reorganization proceedings. C., C., C. & St. Louis was marked off suddenly again in the afternoon, but recovered as quickly, and it, like the others, shows only a slight change this evening. The crop situation keeps the "bulls" and "bears" alike cautious until the final outcome is known, and, while the feeling in the street is again bullish, further developments are awaited. The market remained intensely dull throughout the afternoon, and finally closed stagnant at insignificant changes from last night's figures. The final changes are about equally divided between gains and losses for small

Railroad bonds were duller than for a time, although a better tone prevailed than usual of late. The total transactions reached only \$333,000, with no animation anywhere in the list. The important changes, however, were losses, and international lists declined 2.

Government bonds were dull and steady. State bonds were entirely neglected. Closing quotations were:

TRADING AT CHICAGO.

Continuation of the Decline in the Grain

Markets-Hog Products Lower. CHICAGO, Aug. 8.-A large business was transacted in wheat, and the market ruled weak and lower, with considerable realizing and some selling short. The market appeared to be a broader one, outside orders being well represented. New York was reported a heavy buyer at one time during the session, and it was claimed that St. Louis parties were rather free sellers. The market opened 38@12c lower than yesterday's closing, influenced, no doubt, by the weaker tone of European advices, but good buying checked further decline, and prices were advanced 118@13sc above opening figures. Large export clearances helped the upward tendency, but the speculative offerings became heavy again at the advance, and prices receded 15sc from the outside range, was weak, and closed 5,07,00 lower than yesterday. Corn was active and greatly unsettled. No rain was reported in Kansas or Nebraska. and light rains in parts of Iowa, Missouri, Illinois and Iudiana. First trades were the same to a shade under the closing prices of yesterday, but soon sold off 34c, rallied, advancing 13sc, sold off again 12c, advanced 12, off 17s @21sc and closed 112@2c lower than yesterday. Oats trading was liberal, but the feeling nervous and the market unsettled. especially at the opening. The free offer-ings caused opening sales to be made on a range of 12@34c. Prices receded 12@34c. with only a few sales, but reacted 34@78c, again weakened 3, alc and closed easy, with a net decline of 1@14c from yesterday's closing figures. In mess pork a fairly active trade was reported. Prices ruled irregular and declined 20@2212c, and closed comparatively steady. Lard trading was only moderately active. Prices declined .05@.10c and the market closed about steady at inside figures. In shortrib sides quite a good trade was reported. A reduction of .05@.071gc was submitted to, and the market closed rather tame at medium figures. The leading futures ranged as

DUN & CO.'S WEEKLY REVIEW.

Poorer Crop Prospects and Tariff Delay Re-

tarding Business Somewhat. NEW YORK, Aug. 8.-R. G. Dun & Co.'s weekly review of trade says: Less favorable crop prospects, closer money markets, and further delay in action on the tariff bill in the Senate have increased the uncertainty which retards business. In spite of a sharp advance in wheat, corn, oats, oil and coffee, the general average of prices for commodities is a shade lower than a week ago.

The present state of trade throughout the country appears satisfactory for the season, and reports are almost uniformly confident in tone. Boston notes little present change, but belief in great activity in the fall; wool is more freely bought. Cotton goods move fairly, and the suspension in print-cloth-works is having the desired effect. Philadelphia notes no improvement in wool and scanty buying of cotton, lower prices being awaited. Chicago reports smaller receipts than last year of wheat. flour and corn, a heavy decrease in cheese. but a much larger movement of cattle and of hogs, because of fear as to the corn crop; wool receipts fall off a third and hides a quarter, while sales of dry goods and clothing are larger than last year, with prompt collections. St. Louis notes strong trade in nearly all lines, Kansas City a fair trade for the season, Omaha and St. Paul a good trade, and Milwaukee improvement. At Minneapolis the lumber demand is good and flour stronger; at Detroit trade is equal to last year's, and at Cleveland satisfactory, excepting that lake freight is dull and depressed from over-supply of shipping Glass and coal are inactive at Pittsburg.

but iron stronger. The crop outlook is, on the whole, less promising. The speculative news gatherers are making the most of the damage to wheat and corn. Wheat has risen 34c, with sales of 28,000,000 bu. Corn 312c, with sales of 18,000,000 bu, and oats 5c, while pork, hogs and cotton are unchanged. Iron ore and pig are inactive and weak at Cleveland, but in rather better demand at Pittsburg where the demand for finished iron is excellent for the season. The same is true at Philadelphia. A contradictory state of things is seen in the wool and woolen trade; decidedly larger sales of wool and of the lower grades of woolen goods, but lower prices for wool and depression in the manufacture, especially of the all-wool and finer goods, in the belief that delay of the tariff and the heavy imports will prevent improvement this year. The fall of 20 per cent. in wool abroad threatens a great supply of cheaper goods if the proposed change of duties fails, so that producers hesitate. The copper market is slow, with some lake at 17 cents; tin and lead are dull. The outlook depends largely upon the extent of injury to crops. the action of Congress regarding duties and the foreign complications which affect the

products continue small and imports very The business failures occurring throughout the country during the last seven days number 208 as compared with 189 last week. For the corresponding week of last year the figures were 201.

INDIANAPOLIS MARKETS. Trade Very Satisfactory in Volume for August, with Prices Ruling Steady. INDIANAPOLIS, Aug. 8.

In most departments trade was fairly active to-day, with prices ruling steady on most lines of goods. Syrups have been advanced 6c to 8c per gallon in Eastern markets within a few days. Molasses has also taken an upward turn, in sympathy with syrup. Coffee options were a shade lower in New York yesterday, but coffee itself was firmly held. Sugars are quiet. Canned goods are very firm. The dry-goods men speak of trade as unusually good for so early in August, and prices on all lines of goods are steady and firm. The hide market still carries an upward tendency, and is in better shape in every respect than at any time in the last two years. The flour market is rapidly working into better posion, and millers are much encouraged over the outlook. Poultry rules easy at the reduction of Thursday. Eggs are firm and in good request. The same is true of a good article of butter. Apples are arriving in larger quantities, and prices are easier. l'omatoes are very plenty and cheaper. Irish potatoes are in good supply, but good stock will bring our best quotations. Receipts of both watermelons and cantaleups are large and prices weaker.

GRAIN. The local market continues in strong position, except corn, which, on increasing receipts, is easier. Track bids to-day ruled as follows:
